NOTICE TO FILE CORRECTED APPLICATION PAPERS

Filing Date Granted

This application has been accorded an Application Number and Filing Date. The application, however, is informal since it does not comply with the regulations for the reason(s) indicated below. Applicant is given **TWO MONTHS** from the date of this Notice within which to correct the informalities indicated below. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a)

The required item(s) identified below must be timely submitted to avoid abandonment:

**COPY OF PAPERS
ORIGINALLY FILED**

- The Claim(s) commencing on a separate sheet (37 CFR 1.75(h)).
- Substitute drawings in compliance with 37 CFR 1.84 because:
 - drawings contain excessive text. Suitable descriptive legends may be used, or may be required by the Examiner where necessary for understanding of the drawing but should contain as few words as possible (see 37 CFR 1.84(o));

*A copy of this notice **MUST** be returned with the reply.*

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The *Agrobacterium* strains were cultured in the YEA medium for 24 h at 28 °C. The cell concentration of the *Agrobacterium* suspension was adjusted to 10⁸ cells/ml. The *Agrobacterium* suspension was then mixed with the plant tissue and the mixture was incubated for 24 h at 28 °C. The plant tissue was then cultured on the selective medium for 24 h at 28 °C. The transformation efficiency was calculated as the number of transformants per 10⁸ cells of *Agrobacterium* suspension. The data were expressed as the mean ± SD of three independent experiments.
